Friday 29<sup>th</sup> June, 2018

Dear Parents and Carers,

As part of the Science and PSHE curriculum, Years 3, 4, 5, and 6 will soon be receiving their Sex and Relationships Education (SRE) lessons. These are intended to provide knowledge and understanding of how the human body changes during puberty and the processes of human reproduction in the context of relationships based on love and respect.

All materials are carefully designed for the age and emotional maturity of the different age-groups. The content covered is outlined below:

Living and Growing:

Year 3: Differences / How did I get here? / Growing up

Year 4: How babies are made / How babies are born

Year 5 & 6: Puberty / Menstruation / Love and relationships

If any parents or carers would like to view the materials which will be used, please see your child's class teacher before Monday 9<sup>th</sup> July when the lessons will start. Teachers will be happy to discuss the content of the programme with you.

Parents can decide to withdraw their child from parts of the SRE curriculum, except the elements which form the statutory Primary Science curriculum. Please write a letter to the school by Monday 9<sup>th</sup> July if you wish to withdraw your child from the elements of SRE which do not form part of the compulsory science curriculum.

Yours sincerely,

The KS2 team
