

Snowy Class Autumn 2 2019

Personal, Social and Emotional Development (PSED)	Communication and Language (CL)	Physical Development (PD).
We will be learning about what it takes to be good friends and following school rules. We will also think about our similarities and differences and how we can work collaboratively.	We will continue to develop our language skills through discussions during circle time and by sharing ideas with others. We will continue to develop and learn skills of listening and responding to others.	We will move in a range of ways and discover the impact of physical activity on our bodies. We will continue to develop our pencil grip from whole hand grasp to thumb and two finger grip. (pinch and flip)
Understanding the World (UW)	Our topic this term is Ourselves .	
We will be exploring the changing weather, environment and climate. We will also continue looking at ourselves and our families through baby or family photos, exploring similarities and differences over time	This topic will give children the opportunity to share what makes them unique. It also relates to seasonal festivals, celebrations and traditions. This topic will be subject to change due to children's interests and progress. The children will also be covering some key texts chosen by the English Team.	Expressive Art and Design (EAD) We will continue to explore different materials, learning how to manipulate them and combine them to create different pieces of work. We will experiment with different ways of expressing ourselves through music and dance
Literacy (LIT)	Mathematics (MATH)	
We will continue learning phonics through Letters and Sounds. We will be learning to identify sounds and blend them to read. We will continue to form pre-cursive letters to be able to develop writing in the cursive style our school uses. We will continue learning to identify and write our names. Children will have opportunities for mark making/writing around the environment.	We will be looking at numbers 0-15, what they mean, finding that amount and finding different ways to make them. We will continue to look at what one more and one less is and start to combine groups. We will continue learning about days of the week, months of the year and seasons. We will continue to identify different 2D shapes and look for them around the environment.
