

Angel Class Spring 1 2020

Personal, Social and Emotional Development (PSED)	Communication and Language (CL)	Physical Development (PD).
We will be continue to be good friends by considering the feelings of others and following school rules. We will also learn to work collaboratively, taking turns and sharing resources and ideas.	We will continue developing our language skills through discussions and by sharing news and ideas with others. We will continue to develop skills of listening and responding appropriately to others.	We will move in a range of ways and consider the impact of physical activity and dietary needs on our bodies. We will continue to develop an effective pencil grip for writing. (pinch and flip)
Understanding the World (UW)	Our topic this term is <i>My Planet</i>.	
We will be exploring the changing weather, environment and climate exploring similarities and differences over time and for different countries. We will also look at our planets place within the solar system.	This topic will give children the opportunity to explore our planet and its environment, looking at countries across the world and our Island. This topic will be subject to change due to children's interests and progress. The children will also be covering some key texts chosen by the English Team.	Expressive Art and Design (EAD) We will to explore a range of natural and man-made materials, learning how to manipulate them and combine them for effect. We will continue experimenting with different ways of expressing ourselves through music and dance
Literacy (LIT)	Mathematics (MATH)	
We will continue learning phonics through Letters and Sounds. This will include learning to identify sounds and blend them to read alongside learning to form pre-cursive letters. This will promote writing in the cursive style our school uses. Children will continue to have opportunities for recognising and writing their name along with labels, captions and sentences within the environment.	We will be looking at numbers 0-20, what they mean, finding that amount and finding different ways to make them. We will continue to look at what one more and one less is and combine and partition groups. We will continue learning about days of the week, months of the year and seasons. We will continue to identify different 2D and 3D shapes and look for them around the environment.
